2.

Pandemic

Students were denied monetary relief through federal agencies.⁴

Education Protection Program would have allowed Moko a Senior Certificate.

Agriculture is the oldest profession and has an unbroken line of practice.⁵ Agriculture is construction of outfall of sewer.⁶

The sanitation project is meant to upgrade the sanitation infrastructure of Fort Cox , in order to meet the standards of the Department of water and sanitation.⁷ Oxidation ponds capacity has been reduced and sewer network needs to be upgraded.⁸ Once the project is complete , the sanitation infrastructure will adhere to the Department of Water Sanitation standards and sewer network will be able to withstand future capacity increase in terms of population.⁹

Agricultural colleges play an important role in the development of agriculture because they develop and teach new ways of planting crops with more yield per acreage , more resistance to drought and disease, and more general advantages.¹⁰

Agriculture colleges also develop new ways of animal farming, as well as teach international best practices for raising farm animals, so that farms and farmers can grow and develop at a faster and more sustainable pace.¹¹ Agriculture ensures food security and bashes the belief , where non human enforces hunger and thirst.

Students received instructions for fundamental of food production. The colleges cancelled all practical instructions and exercises during 2020 due to pandemic and students were required to rote learn passages from the textbook and online quiz questions. Therefore the right to basic education was NOT denied.
